# About us- Swaran Aquatech Private Limited

**Swaran Aquatech Pvt. Ltd**, an ISO 9001 – 2008 certified company, is an acknowledged leader in the area of water treatment systems.

We have highly specialized technical staff with over 25 years of collective experience in the field of water and wastewater treatment including effluent treatment/ recycling and sewage reclamation etc.

Swaran Aquatech is promoted by professionals of Nuchem Weir India Ltd. part of Nuchem group, a company established in 1952 having distinction of introducing Reverse Osmosis technology for drinking water in India in 1993

Our professionals and associates had the honour of completing prestigious projects like **7.2 MLD STP for GMR group, Vasavi, Chennai** in 1998 converting city sewage water into water suitable for cooling tower replenishment for their power plant.

Our team also pioneered the establishment of large capacity sea water treatment plants in India. A **2,560 m<sup>3</sup>/day capacity reverse osmosis plant** was set up at **VXL, Porbander** in 1994. Another sea water plant employing the RO technology was set up in 1996 at Birla Copper, Bharuch having a capacity of 10 m<sup>3</sup>/hr.

Our team was associated with **BGR group Chennai** in providing three projects of **4.5 MLD** each for **Zero liquid discharge system (ZLD)** to textile units in Tripur.

The company Swaran Aquatech Pvt. Ltd. was promoted in 2011 and it entered in business collaboration agreement with Nuchem Weir India Ltd. for working jointly in water and waste water solutions. Since then the company has achieved following milestones-

- **Uttarakhand Pey Jal Nigam**- Providing 10 MLD drinking water system for Nainital City.
- **Delhi Metro Rail Corporation** – Providing STP , WTP & RO plants for their residential colonies and workshops in Delhi and NCR.
- **Institute of Liver and Biliary Sciences, Vasantkunj, New Delhi**- Providing STP, ETP, WTP.
- Similar jobs have been carried out in private sector - Hospitals, housing and industrial sectors as detailed in attached company profile.

Following are some of the technologies and processes used by us for implementation of projects for water treatment.
